

Adventureline

Choose these boats for practically anything you like, water sport, sub-aqua, work horse or just fun....

These 4 x 4's of the seas are made for rough waters and not limited to choppy seas. In fact, when conventional speed and ski boats are confined to the harbour, the Adventure Range can be launched.

The innovative deep V hull is designed to cut through and cushion the impact of the waves, giving a smooth, comfortable, dry ride in calm or rough seas. The integral deck is moulded with a slip resistant finish and the depth gives space and allows a generous load capacity. The hulls are of fiberglass construction including vacuum bagged BALSA core to give better impact resistance and rigidity.

The layout can be customized to suit your specific requirements with either single or twin outboards or stern drives, deck set up modules, bimini tops and steering consoles.

Technical Specifications

Model	Length	Inside Length	Beam - Overall	Beam - Inside	Approx. Weight	Tube Dia. mm/in
780	7.77m/25.49ft	6.48m/21.25ft	2.68m/8.81ft	1.73m/5.6ft	680kb/1499lb	0.55/1.8ft
