

Re-Tubing / Re-Pontooning

We also specialize in fiberglass repairs and re-pontoons of all other manufacturers boats, as our process is second to none, and as this is sometimes the most cost effective solution for the customer (eg a 4m boat will cost a customer $R1550 \times 4m = R6200 + 14\% \text{ vat} = R7068$) this would include welded seams and baffles, rope, rope holders, 4 handles, one stripe, one layer of rubbing strake, and Valmex PVC materials 1000gsm to 1450gsm, colour of pontoon and stripe to be determined by customer. We further offer a 10 working day turnaround on all re-pontoons. All work and materials are guaranteed for a mandatory 12 months, with 3 years on the Valmex PVC pontoon material and a "lifetime of boat" guarantee on our seams.

We do not re-tube fully inflatable's or racing ducks!!!
